

Company Profile Siyakhula Development Academy

MIND POWER AT WORK.

ABOUT US

Siyakhula Development Academy is a private company registered in 2017. We offer academic coaching, which is a combination of tutoring, support and guidance. We provide both customised group sessions and customized one-on one services suitable for our clients to learn and implement their learnings for improvement in their studies.

OUR AIM

To create a positive learning platform for those who desire to learn and improve their areas of development by delivering excellent academic support and guidance in a very professional and exciting way. Our services are rendered by enthusiastic well-trained professionals with experience, passion, development-drive and commitment in different fields. Our organization has a group of multi-skilled, experienced and knowledgeable individuals with a common purpose of social impact and social growth.

OUR MISSION

To provide professional coaching which will develop upcoming leaders with relevant skills and knowledge in order to consistently remain competent in the challenging global market.

OUR VISION

To be one of the top coaching providers within our niche characterised by offering quality services, creating an excellent environment for our clients to learn, execute and grow, to satisfy our clients and have an impact in their lives through our supportive system.

OUR VALUES

The following values inform how we operate:

1. **Time conscious:** be aware of the value of time and therefore, always be punctual in serving our clients and in all other things we do.
2. **Respect:** constantly and consistently considerate of all the stakeholders' interests in all our dealings.
3. **Commitment and Hard-work:** we pledge ourselves to provide quality services through dedication and enthusiastically finish all the tasks at hand timeously.
4. **Effective Communication:** Ensuring that all exchange of information is done in an appropriate manner so as to promoting a smooth flow of communication in all relevant parties.
5. **Customer-centric:** we provide a positive customer experience and we value all our customers.

'We intend to improve lives of our clients by providing a distinct guidance to educational improvement and personal growth through our offerings.'

Our Services

Academic Coaching

We assist primary and high school learners to improve their academic performance. We have proven strategies that provides good results to assist learners in gaining confidence, improving their grades and finding joy in their studies. We have assisted learners to improve by an average of 20% through our intervention.

We specialise in the following subjects at affordable rates :

IsiXhosa

English

Life Orientation

Mathematics

Physical Sciences

Accounting

Business Studies

Career guidance

Most students face a challenge of not knowing which career path they should go for, we commit into providing consulting by unlocking unknown elements crucial for decision making to assist students in making rational decisions on which subjects to choose and which careers suits them. We assist students in understanding themselves to a point where they are confident about what they want to do post-matric.

Personal Development

Young people find themselves in confusion due to life challenges and end up making uncalculated decisions which negatively affects them for the rest of their lives. We offer a platform of assisting young people in realizing their full potential by guiding them in making right choices and by offering effective tools necessary for their personal growth.
